

Integrated Property and Casualty Portfolio

PROQUEST®
A DIVISION OF ALLIANT

ProQuest will help you assess work-related exposures...and in the process protect your firm's assets.

To protect against the range of premises- and operations-related exposures inherent in the operation of a law firm, ProQuest has created an integrated property and casualty insurance portfolio (IIP) to address these unique risks.

After a thorough review of your existing policies, the ProQuest team will assist you in selecting the most appropriate coverage for your firm and will approach leading insurers on your behalf. Your IIP provides an individualized property and casualty insurance program through a streamlined process. This collaborative process will result in a customized program to address the unique exposures of your firm's offices.

In addition, through our access to the resources of Alliant, we can introduce risk control management consultants who are experts in identifying and mitigating a myriad of work-related exposures that can result in costly losses.

The property and casualty insurance resources of ProQuest include:

- Liability
- Workers' compensation
- Travel
- Fiduciary
- Fidelity
- Excess liability/umbrella
- Property
